Flutter Developer with 3+ years of experience building scalable, high-performance mobile applications for Android and iOS. Skilled in Bloc/Cubit, Riverpod, REST API integration, and Clean Architecture, with hands-on experience in e-commerce and multi-vendor applications. Strong focus on performance, maintainability, and user experience, with multiple apps successfully published on Google Play and the Apple App Store.

Experience

Flutter Developer — Abaad Automation

(Full-Time / On-site) Riyadh, Saudia Arabi

Apr 2026 – Present

- Responsible for leading the development of the company's mobile application using Flutter.

Flutter Developer — Al Dhabi Company

(Part-Time / Remote) Sana'a, Yemen

Dec 2025 – Present

- Customized and extended a white-label multi-vendor platform (3 apps: User, Driver, Vendor).
- Adapted UI/UX to match company branding and localized features.
- Modified pricing logic, order flow, and configuration modules.
- Managed API integrations and performance optimizations.

Flutter Developer — Now Company

(Full-Time / On-site) Jeddah, Saudia Arabi

Aug 2025 – Feb 2026

- Customized and enhanced a white-label multi-vendor delivery platform (User, Driver, Vendor apps).
- Adapted UI/UX branding and localized workflows.
- Adjusted pricing logic, order flow, and configuration modules.
- Identified and resolved performance bottlenecks, improving app responsiveness and data handling efficiency.

Freelance Flutter Developer — Remote

2023 – Present

- Developed apps for local clients with state management, responsive UI, and secure data handling.
- Collaborated with clients to define scope and deliver within deadlines.

Flutter Developer — Supreme Agricultural & Fisheries Committee

(Full-Time / On-site) Sana'a, Yemen

Dec 2023 – Feb 2025

- Led the development of four applications focused on dairy and fuel tracking for farmers.
- Technologies: Bloc, API Integration, MVVM, Secure Storage.

Education

Bachelor of Information Technology (IT) - 2025 — Al-Razi University(Sana'a, Yemen)
Graduation project ranked among the top 5 projects in the Faculty of Computer Science at Al- Razi University (2025).

Projects

- Mazboot – a Regulatory Inspection & Compliance app, developed as part of my work at Abaad Automation Company.
- Top Media – an Ecommerce app (User App, Admin Dashboard using Laravel).
- Al Dhabi Multi-Vendor Platform – 3 apps (User, Delivery, Vendor) for a multi-module delivery & e-commerce platform.
- Dairy Unit Management System – 3 apps for milk collection & tracking.
- Digital Agriculture System – E-commerce & agricultural guide app for farmers.
- Diesel Management App – Fuel distribution tracking app with driver logs.
- Rabitat Al-Ahali (Blood Donation Platform) – 2 apps (User, Admin) application connecting blood donors with recipients in urgent cases.
